

Case Study: Leandre Sahiri

Activity: Preparation for
New Portrait Gallery

Time Banked: 20 hours

Leandra gave 20 hours of his time to prepare for a new exhibition to be launched at an event on 12th September at Wealdstone Library to celebrate African Scientists and Inventors.

This involved **Leandre** planning the programme, purchasing and preparing materials, organising food and developing a business plan to develop this into a series of events to be run on a social enterprise basis.

This gained **Leandre** 20 time credits to spend on herself at a later date.

Leandre is well known in Harrow for his work in ensuring the Harrow Community are aware of the contribution of black African's to society and has contributed to the Black History Season.

He said:

“It is very important and imperative that everyone is aware of the contribution of African Inspirational people, bright and inspirational individuals, to the development of mankind, not just in sport and entertainment, but also in other fields such as the sciences, technology, discovery and inventions.”

Leandre also supports the idea behind **Harrow Communities Click** and its sister project **Local Change** that has supported this idea. He is looking forward to the event and exhibition and further support that he hopes to receive from Community Click members in the delivery of this exciting new venture.
